The importance of fit:

Every child's foot is different and they continue to develop until they're 18.

The right fit helps performance and reduces the risk of injury and problems.

Every school day is filled with a range of different physical activities.

Due to continual growth and development, it's essential to get their feet measured properly every time they need new shoes.

With The Athlete's Foot highly trained Fit Technicians getting the right fit is easy through width options and 1/2 sizes.
